Four more Clubs for League Football

By WALTER PILKINGTON

The English Football League, has been extended to include an additional four teams.

The League is a remarkable organisation for many reasons; it has existed 60 years and today is stronger than ever; it conducts its business with a quiet efficiency and clockwork regularity which offer an example of thoroughness without fuss.

The People's Government in Peking has concentrated upon the Taiwan issue in its public reactions to the present crisis. It accuses the United States of aggression and interference in the internal affairs of China. About the resolution of the United Nations Security Council on Korea, and the rights and wrongs of the Korean conflict, it has remained silent. It has expressed Korean regime on the "attack" to which it claims it was subjected; nor has it condemned South Korea for "aggression." Unlike President Truman, who linked the two issues together, Peking seems to have action is certainly much more adroit. The only broad link between them lies in Mr. Mao Tse-tung's "hands off Asia" statement to the Government Council after it had heard Mr. Chou En-lai's report on the international situation.

Egypt's Premier defends policy Korea issue

Cairo, July 1. The Egyptian Prime Minister, Mustafa El Nahas Pasha, declared today in an interview on Korea that peace could not be preserved on the basis of "international favouritism."

He was defending the Egyptian statement on nonsupport for the Security Council action in a statement to the Wafdist (Government party) newspaper "Al Balagha.",

"Egypt's decision is clear and needs no further explanation," he said. "It cannot be misinterpreted. It is the voice of a free nation in the name of all nations which cherish peace on the basis of justice.

"Every nation with a case before the United Nations has expected the organisation would stand with right and enable it to win even though might were on

the other side. "These nations are looking today to the United Nations or the Security Council and find them using two different standards-in the Korea question they act with speed and use armed forces but nothing was done in other cases.

"Egypt cannot forget her own case, still pending before the Security Council, and we consider it a case of aggression. We cannot forget there are other cases for other hations, who are in a miserable condition as a result of international favouritism.

"Peace cannot be maintained on that basis. A need not tell you after all this that Egypt does not support any aggressor, and we stand with any country attacked.

Because it is inevitable that a tourist uses the Star Ferry during his sojourn here, he soldom misses a scene like this (in above picture) something that will be reminiscent of his Hong Kong visit.

Statistics reveal that as many as 50,000 people have crossed the harbour by the Star Ferry in one day. It is Star Ferry in one day. It is estimated that 500 passengers are normally ferried across in one trip in a well-filled launch. fort as seen in the above picture. The Star Ferry operates four modern launches during the normal period on 10-minute and 15-minute schedules. During rush hours, a five-minute service is maintained with the addition of another launch to cope with the flow-morning from Kowloon and evening from the Island.
